NCO China:n tervehdys

"NCO provides corporate registry services and financial management solutions in China and Hong Kong. The basic idea behind our services can be summarized under the headline of *Competence, Compliance and Control* – which are the benefits and advantages that our clients can obtain by using our services.

We are currently serving approx. 100 foreign companies in China on long-term basis within accounting, tax, and HR administration - many of whom, we have first helped establish their company in China. Most of our clients are SMEs, including many from the Nordic countries, who value our flexible and practical solutions, which allow them to focus on their main purpose: Developing their business in the Chinese market.

Value proposition:

- *We offer SME's the best possible foundation for rapid growth in China by effectively managing back office functions and by providing superior financial management solutions. With NCO as the backbone of operations our clients can focus on what matters most to them – growing their business in China. We guarantee full control and full compliance through competent reporting and tailor-made solutions."*
